- Ambitious developer with a passion for new technologies. Motivated to continuously expand my skills and advance professionally.
- Former Full-Time Logistics Specialist with 6 years of experience in international road freight transport in Europe.

Work History

2022/09 –
2023/03

Web/Software Developer Intern

Teamcal Ai - Mountain View, California, USA

Working on automatic meeting scheduling Web App using PHP, MySQL, CodeIgniter, HTML, CSS, JavaScript, Bootstrap. Working with existing code, fixing bugs and implementing new features.

2018/03 –
2021/07

Road Transport Specialist

Raben Group - Oss, Netherlands

Organizing Full Truck Load transport between European countries. In my 2nd year, I took over the customer-care responsibilities of a top-3 client, who was on the edge of ending cooperation, and improved delivery performance as well as information flow, which led to a continuation contract and an increased number of orders.

2018/01 –
2018/02

Full Truck Transport Intern

Raben Group - Oss, Netherlands

Studied current Full Truck Load transportation systems, analyzed effectiveness, use, and needs.

2017/10 –
2017/12

Supply Department Intern

Dpointgroup - Barcelona, Spain

Storage and purchase management, conducting research on potential products, vendors, and services, and comparing price and quality to ensure the best deal.

2015/04 –
2017/09

Logistics Operations Specialist

Fresh Logistics, Raben Group - Szczecin, Poland

Domestic distribution transport management, route planning, customer orders handling and communication, warehouse operations.

2015/02 –
2015/02

Logistics Operations Intern

Fresh Logistics, Raben Group - Szczecin, Poland

Learned how to use Transport Management System used by the company, completed forklift and warehouse equipment certifications.

Education

2021/08 –
2022/05

Certificate Program: Mobile/Web Application Development

City College of San Francisco - San Francisco, California, USA

- Dean's List Fall 2021
- Related courses: Intermediate HTML and CSS, JavaScript, jQuery, AJAX, Intro to Java, DNS Security, Service Side Tech.

2013/09 –
2017/03
